DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 15-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bedwell (US5090020).

With respect to claims 15-22, Bedwell shows in Fig.2 an excimer laser 1 containing Xe, Ar, F₂, and He sealed in a chamber of the excimer laser (col.3, 1.39-51) and the gas storage means 25 (col.5, 1.46-63) that meets the claim language.

Response to Arguments

Applicant's arguments filed on 11/26/03 have been fully considered but they are not persuasive.

Regarding the Bedwell reference, applicant argues "...the teachings of Bedwell do not contemplate or suggest the addition of Xe to the laser gas

mixture...”. The examiner does not concur. In fact, the Bedwell reference clearly teaches the laser gas mixture of at least Xe, Ar, F2, and He (col.3, 1.39-50).

Further, Applicant argues “... Bedwell does not describe that ArF excimer laser is used as a light source of a scanning type exposure device...”. The argument is not persuasive because the combination of Bedwell and the admitted prior art in Fig.8 suggests the invention as set forth in Applicant’s claims 18-20.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
